Notification to all ICS Operators on Tracenet Handling

Dear Operators,

Sub: Tracenet handling by ICS Operators

Please consider this notification as a general note of alert related to data entry, stock update and other enquiries through Tracenet.

We understand that some ICS have limited Tracenet handling competencies. As an outcome, it seems that the data work is outsourced to external professionals or organizations for a paid service.

ISCOP takes this opportunity to alert that such external data services shall be validated through the ICS organization structure. However, we recommend that all ICS shall build their own Tracenet handling competencies. If essential, ISCOP shall coordinate training to equip the ICS in this regard.

ISCOP shall take action against any unvalidated third party services as an act of non compliance and confidentiality.

Kindly consider this intimation as a critical advise.

Prof. Dr. S.R. SREE RANGASAMY

President, ISCOP
